

# Technology Products Newsletter

**August 2022**

Welcome to our August issue of Bureau Veritas' Global Technology Products Newsletter providing our latest updates on electrical, automotive/new mobility and electronics/wireless market segments.

## **NEW MOBILITY INSIGHT SERIES +**

Get Notified for Premium Content

### **Join Bureau Veritas CPS New Mobility Insight Series +**

In the August session, we will introduce our **EMC testing** capabilities. Many new cars sold today have more on-board connectivity than an airliner. With the growth in **V2X**, validating you can manage the interference between vehicles, roadside units, emergency call services and passengers/pedestrians is critical. So get equipped with our knowledge on **Auto EMC requirements** and **validation testing**.

### **Bureau Veritas Japan supports Global Meteorological Research Project in Yonaguni**

Bureau Veritas Japan proudly supported the global Meteorological Research Project in Yonaguni in June. The joint research project features cooperation between Japan, Taiwan and US to improve accuracy in the forecasting of extreme rainfall. In this project, we assisted the radio license acquisition for an experimental radio station on Yonaguni Island, performed the onsite inspection and offered advisory services.

### **Bureau Veritas to verify Taiwan Power Company's 60 MW On-site Energy Storage System is IEC 62933 Compliant**

Bureau Veritas is delighted to announce its partnership with TECO Electric & Machinery Co. Ltd (TECO) performing the testing and certification for their largest 60MW on-site energy storage system. With Bureau Veritas' rich experience and holistic expertise, TECO has successfully obtained the first IEC 62933 certificate in Taiwan.

## Bureau Veritas Events

### [Safety Guidance for Energy Storage System in Energy Transition Era](#)

DenWell  
Taipei, Taiwan  
September 16, 2022

### [CyberSEC 2022 Taipei](#)

Taipei Nangang Exhibition Center  
Taipei, Taiwan  
Stand B15, Hall 2  
September 20 - 22, 2022

## Global Market Access News Update

### AMERICAS

- Brazil ANATEL Streamlined renewal process postponed until Oct. 31, 2022
- Mexico IFETEL - Telecom verification audits for distributors / importers
- Class I Medical Device UDI Labeling and GUDID Submission Final
- US – Federal – Department of Energy - 10 CFR Parts 429 and 431: Energy Conservation Program: Test Procedure for Direct Expansion Dedicated Outdoor Air Systems

### ASIA/PACIFIC

- Thailand NBTC public hearing on Technical standard of 5.925-6.425 GHz (Wifi 6E)
- Singapore IMDA issued Technical Specification on Security Requirements to Guard against Network Storms for Cellular Devices
- New Zealand RSM has announced WLAN use in the 6 GHz Band and other updates
- Malaysia MCMC issues Radio Equipment Class Assignment, Notice No. 2, 2022
- Malaysia SIRIM update on certification of IPV6 over Cellular Equipment
- India TEC issues exemption on some ER of PON parameters under MTCTE
- Australia/New Zealand: AS/NZS 62368.1:2022 Audio/video, information and communication technology equipment, Part 1: Safety requirements (IEC 62368-1:2018 (ED. 3.0), MOD), 2022
- Colombia MINTIC issued Public Consultation-July 2022 on Possible Uses of the 6 GHz Radio Frequency Band for Low Power Applications
- South Korea – Act No. 18912 on the Partial Amendments to the Act on Resource Circulation of Electric/Electronic Products and Vehicles
- South Korea – Ministry of Trade, Industry and Energy Ordinance No. 468 on the Partial Amendments to the Enforcement Rules of the Electrical Appliances and Household Appliances Safety Management Act
- Thailand – Ministry of Industry Regulation on Prescribing Requirements for Air Purifier Products
- Vietnam – Consolidation Document 07/VBHN-BKHCHN - Circular Promulgating "National Technical Regulation on Electromagnetic Compatibility for Household Electrical and Electronic Equipment and Similar Purposes"
- Vietnam – Consolidation Document 08/VBHN-BKHCHN - Circular Promulgating "National Technical Regulation on Lighting Products Using LED Technology"
- Taiwan - Amendment of "Requirements on Minimum Energy Performance Standard, Energy Efficiency Rating Labelling and Inspection for Non-Ducted Air Conditioners"

## EUROPE/MIDDLE EAST/AFRICA (EMEA)

- France ARCEP - Radio Frequency Allocation Table, Order, May 2021 - Amendment - Order, July 2022
- Mauritius ICTA issue Decision for allocation of additional spectrum in the frequency range 5945-6425 MHz for Broadband Wireless Access Services (WiFi 6E)
- France ARCEP issue Draft Decision, July 2022 - on Use of Radio Spectrum in the 5150-5250 MHz, 5250-5350 MHz and 5470-5725 MHz Frequency Bands for the Implementation of WAS, including RLAN
- Moldova issued Decision 208/2022 on Approving Technical Regulation on Making Radio Equipment Available on the Market (CE conformity marking)
- Kenya CA issues guidelines on the use of Radiofrequency Spectrum by Short Range Devices, June 2022
- Luxembourg – Notice of Publication Pursuant to Section 2bis of the Amended Grand-Ducal Regulation of 30 July 2013 Relating to the Limitation of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment
- Serbia – Rulebook on the Method of Determining the Conformity of Objects Made of Precious Metals Based on Prescribed Documentation
- MOLDOVA: Revocation of label regulation from 22nd February 2021
