Bureau Veritas Consumer Products Services

Technology Products Newsletter

January 2022

Welcome to our January issue of Bureau Veritas' Global Technology Products Newsletter providing our latest updates on electrical, automotive/new mobility and electronics/wireless market segments.

Bureau Veritas joins the ISA Program in Support of the Global ISASecure® ISA/IEC 62443 Cybersecurity Conformance Scheme

Bureau Veritas is delighted to join the ISA Program in support of the global ISASecure® ISA/IEC 62443 Cybersecurity Conformance Scheme, and sign an agreement to conduct cybersecurity assessments as an ISO/IEC 17065 accredited ISASecure® certification body. This scheme further supports our cybersecurity capability for automation and control systems to secure our clients are robust against network attacks and free from known vulnerabilities.

Register for Webinar on the IECEE 62443 Standard | Feb 15, 2022

The IECEE 62443 standard covers an international set of standards and certifications aimed at minimising the risk of cyber attacks on connected products and systems. The standard follows a structured approach including requirements for commissioning and installation, systems, components and suppliers. The standard covers the entire product lifecycle, from requirements and design to decommissioning.
