

E.A.W. eNewsletter

November 2019

Welcome to our November issue of Bureau Veritas Global **E.A.W.** eNewsletter, the technology news roundup catered for the Electrical Products & Electronics, Automotive and Wireless Industry.

In this issue, we are delighted to announce our sponsorship of the prestigious 100th PTCRB meeting being held in Folsom, California in December where we will be showcasing our global 5G conformance/regulatory testing capabilities as well as our Interlab suite of solutions. Additionally, read about how our Interlab Test Solution DEVICE/UICC for 5G NR USIM/USAT has recently also been listed as TP 302 test platform by the Global Certification Forum.

Discover the full stories below.

Announcement

Bureau Veritas sponsors PTCRB 100th Meeting

- Bureau Veritas is PTCRB accredited with an extensive network of laboratories located in USA, Germany, China, Taiwan and Korea
- We have a long and proud history of actively supporting PTCRB and sitting on the PTCRB IoT Sub-Working Group as Vice Chair
- We will be showcasing our strong capability with testing and certification for 5G, 5G NR, USIM/USAT, etc., conformance test certifications for GCF and PTCRB, and test lab management via Interlab EVO
