

# BUREAU VERITAS MITIGATION FOR EXTENDED STORAGE

One-stop Solution to mitigate and detect the risk beforehand

## BUSINESS CHALLENGE

The unforeseen shipping delay due to heavy port congestion and the global supply chain crisis has resulted in extended storage of products at warehouses and in containers. The storage conditions might increase the risk of contamination and deterioration of quality, which cause loss to the manufacturer.

## SOLUTION

Bureau Veritas is launching Risk Mitigation for Extended Storage Program. This holistic solution provides from awareness training, warehouse assessment, product inspection to container loading check designed to help reduce the risk of product contamination (e.g. mold, insect, etc.) before and during shipment.

## KEY BENEFITS

Screening of product quality before shipment acceptance

Cost and efforts are focused only on high-risk products

Re-inspection of all orders can be avoided

One-stop solution to mitigate and detect the risk beforehand

## HIGH RISK PRODUCT CATEGORIES

### SOFTLINES

Leather Products, Footwear, Clothing, Stretch Material

### HARDLINES

Food Contact Product, Wooden Furniture, Bamboo Fencing

### TOYS & JUVENILE PRODUCTS

Battery Operated Toys, Wooden Toys

### ELECTRICAL & ELECTRONICS

Electronics/PCB

## Workflow Overview

### Risk Assessment Warehouse Selection

#### Risk Evaluation Elements

- Historical Failure
- Product Material
- Packing Material & Method
- Climate Condition
- Manufacturing Process

### Awareness Training

- Global Coverage
- Tailor-made
- Local Language
- Online Learning

### Product Storage Assessment & CAPA

#### Coverage

- General Management
- Product Control
- System & Process Management
- Product Conformity
- Personnel Management

### Product Inspection

- Contamination Check
- Product Quality Check
- Moisture Content Check (*Optional*)

### Loading/Unloading Supervision

- Carton Packaging Condition Check
- Empty Container Check

## Interaction & Data Management

- ✓ On-line tracking and management
- ✓ Client participation via the digital platform on selected sections of warehouse assessment, product inspection.
